Welted Coat

Welted Coat
Design by Irina Shabayeva

GAUGE
10 sts and 22 rows = 4"/10cm over ridge pat st (unstretched) using size 11 (8mm) needles.
TAKE TIME TO CHECK GAUGE.

SHORT ROW WRAPPING (wrap and turn—w&t)
Knit (Purl) side
1) Wyib (wyif), sl next st purlwise.
2) Move yarn between the needles to the front (back).
3) Sl the same st back to LH needle. Turn work, bring yarn between needles to work next st. One st is wrapped.
4) When short rows are completed, hide all wraps as foll: work to just before wrapped st, For knit side: Insert RH needle under the wrap and knitwise into the wrapped st, k them together. For purl side: Insert RH needle from behind into the back loop of the wrap and place it on the LH needle; p wrap tog with st on needle.

NOTES
1) The "welts" referred to in the instructions are the raised St st segments that show on the RS of the fabric and are worked with 1 strand of A and B held tog. The recessed segments are the plain St st sections that are worked in A only.
2) Make the collar first to best determine the ridge pat gauge. The outer, or "fanned out" segment of the collar, unstretched, reflects the st and row gauge.
